

How do you rank with Scholarship?

A Self-Assessment

When reviewing your personal scholarly activities, it is best to remember that all Extension positions are not the same and as your career develops, each person will develop their individual scholarly activities based on experience. Staff should utilize scholarly activities to enhance their performance and create long term goals to be met, not necessarily annual goals.

This is a self-assessment for staff to review types of scholarly activities. Please check the activities you have completed or ones in which you would like to explore and list what assistance you would need to complete this goal.

Scholarly Activity	Completed	I would like to do	Assistance Needed	Date to be Completed
1. I have attended a professional development opportunity.				
2. I have participated in computer technology training.				
3. I have applied new computer technology learned.				
4. I have completed an advanced degree.				
5. I have published an article(s) I have written in a professional journal or book.				
6. I have used innovative strategies to engage clients with technology (i.e. Internet, face to face, video conference, study packets, etc.) for program delivery.				
7. I have received awards in acknowledgment of my work performance.				
8. I have served as a peer mentor.				
9. I have authored subject matter curriculum.				
10. I have completed additional coursework to aid in my subject matter competency.				
11. I have participated in creative efforts on projects in my program area.				
12. I have written or provided local success stories to show impact of programming efforts.				
13. I have participated in research to expand the knowledge and skills for other colleagues.				
14. I have served on an editorial board or as a journal editor.				

Scholarly Activity	Completed	Would you like to do?	Assistance Needed?	Date to be Completed
15. I have created exhibits to promote Extension programming.				
16. I have participated in a fellowship program.				
17. I have written and applied for grant funding.				
18. I have received external grants to benefit programming efforts.				
19. I have authored guides and guidebooks.				
20. I have authored Extension publications and reports.				
21. I have served on a regional or state committee or taskforce.				
22. I have been a member of a professional association.				
23. I have held a leadership role within the professional association.				
24. I have provided leadership in organizing, and conducting workshops/seminars for continuing education for colleagues.				
25. I have served as a moderator or panelist at a convention.
